

Dear Sir/Madam,

Greetings from Coaljunction!

We would like our customers to be informed that, due to periodical validity expiry of PKI component crucial for DSC operations, you need to download fresh PKI components available inside your Coaljunction login for a smooth DSC experience.

Please follow the process mentioned below for ease of DSC operations atleast 1 working day before your scheduled e-Auction(s) for seamless & hassle-free experience.

Now you can easily use your existing class 3 DSC in all types of browser (**Google Chrome**/Microsoft edge/Mozilla Firefox etc) without any hassle.

****Don't use Internet Explorer**

All bidders should login with their DSC 24 working hours before e-auction start time to familiarize themselves with DSC operations.

In case you have problem with PKI component please follow the following steps.

Step:1

Link to download the required PKI component is available under your login

→ Downloads → DSC PKI Components.

You can also download the DSC manual under Downloads → DSC-User Manual.

Step:2

After downloading the Zip file → Extract the file → Open the folder

coaljunction_appletless_pki → double click on CodePKIComponent_Setup_32_bit to install

Step:3

open auction.coaljunction.com on **Google Chrome** → login using **DSC** → press **continue** and select the certificate

Please note you don't need to have or update JAVA in this new feature.

****Manual is also attached for your ready reference.**

For further assistance please call our Tollfree helpline number - 1800 419 20001.

Regards,

Team Coaljunction.
